1 Assignment

Build a command line scraper that accepts:

* a country code (ISO CODE) and tells me which are the top 4 countries that received imports and the import amount for 2017.
* a parameter "all", which will then take a list of countries #randomly grab 5 countries
* a parameter "save", which will then save the contents to a csv file # need to do

Example:

scraper.exe JPN
> USA 200B
> CHN 100B
> HNK 50B
> KOR 45B

scraper.exe all
AFG
> SAU 50B
> IRN 10B
> KUW 5B
> CHN 1B

BOL
> BRA 20B
...
...

scraper.exe all save
> saving results to results.csv
